

Group Name: Brogrammers

Members: Jack Sparrow, Reagan Leonard, Jackson Lee

Assignment 1

2/2	Process Description
	Well-written and of appropriate length and content (i.e., the plans you followed for work and communication)
4/4	Executive Overview
	Well-written and of appropriate length and content (i.e., focuses on basic problem and what system will do)
4/4	Business Case
	Well-written and of appropriate length and content (i.e., focuses on why system is needed, why it will be successful, financial model).
6/6	Stakeholders
	Good stakeholder descriptions; appropriate quantity (at least 10-15 per stakeholder) and quality of questions (i.e., questions designed to elicit requirements for system , rich descriptions (not just yes/no)
4/4	Features & Risks
	Appropriate selections of features, well-described, risk assessed, impact and possible remediation discussed
4/4	Use Case Modeling Diagram
	Appropriately formatted top level diagram that correctly captures all actors and their required behavior. Accurately represented connections between use cases. If desired, additional focused diagrams for individual use cases, including only the affected actors & associated use cases.
2/5	Use Case Text
	Appropriately formatted (see Fig 9.1 in text) use case descriptions that accurately capture required behavior. Where appropriate, include preconditions, guarantees and guards as described in Ch. 9. The use cases in this section should match the use cases presented in the diagram. The format is also difficult to follow. Should look like the example below. There should be extensions that show alternative pathways.

	<div> <p>Buy a Product</p> <p>Goal Level: Sea Level</p> <p>Main Success Scenario:</p> <ol style="list-style-type: none"> 1. Customer <u>browses catalog and selects items to buy</u> 2. Customer goes to check out 3. Customer fills in shipping information (address; next-day or 3-day delivery) 4. System presents full pricing information, including shipping 5. Customer fills in credit card information 6. System authorizes purchase 7. System confirms sale immediately 8. System sends confirming e-mail to customer <p>Extensions:</p> <p>3a: Customer is regular customer</p> <ul style="list-style-type: none"> .1: System displays current shipping, pricing, and billing information .2: Customer may accept or override these defaults, returns to MSS at step 6 <p>6a: System fails to authorize credit purchase</p> <ul style="list-style-type: none"> .1: Customer may reenter credit card information or may cancel </div> <p>The rest of the use cases should be generally described as well.</p>
3/3	<p>Sample inputs/outputs</p> <p>Walkthroughs of several important scenarios, populated with sample input data, and expected outcomes.</p> <p>Very thorough</p>
4/3	<p>Professional Presentation</p> <p>Formatting, readability, spelling, grammar, etc..</p> <p>Exceptional +1</p>
33/35	<p>Overall Score</p>
